

KINGDOM ECONOMICS

This session reveals that the Kingdom of God operates on a different economic system, one shaped by faith, obedience, and divine stewardship, not fear or scarcity.

Kingdom economics is not just about money; it is about alignment, responsibility, and trust, living as stewards, not owners, and becoming conduits, not containers.

We will explore the Kingdom rhythm of sowing, stewarding, saving, and investing, learning to discern what is seed, what is bread, and what is meant to be multiplied.
