CREATIVES PANEL

This panel explores how the Holy Spirit is actively moving within creative spaces, shaping culture, influencing narratives, and opening doors for Kingdom expression beyond traditional church walls

We will discuss how creativity becomes a vehicle for evangelism, using art, media, music, fashion, and storytelling as tools to communicate truth, awaken hearts, and reveal Christ in compelling ways.

This conversation will also address where the Church must engage, not as spectators, but as contributors, bringing wisdom, excellence, and Spirit-led innovation into industries and platforms that are shaping the world.
